

# Gear Checklist

This gear checklist includes a comprehensive list of items you should consider when packing for your next hiking trip. Each trip is unique and the gear you take may vary depending on the conditions so you need to think about the specifics of what you have planned. Packing the right equipment makes the difference between a good experience and a bad one. You will also need to consider the weather conditions for the location you are heading to which may change quite rapidly so be prepared.

Last but not least remember to bring a sense of humour, as well as a sense of wonder and enjoy your trip!
