

The following gear checklist is a list of what I currently carry on solo, multi-day hiking trips ranging from two or more nights up to and including multi-week hiking adventures. My equipment is chosen mainly on the following criteria:

- Choosing the lightest most compact gear where possible (but not always).
- Choosing equipment that is comfortable.
- Choosing equipment that meets my needs.
- Choosing gear that is readily available and where possible, supporting Australian manufacturers and retailers.

Each trip is unique so I will 'swap out' certain pieces of equipment depending on the expected conditions. Use this list as a guide to build your own multi-day kit but make sure that what you choose suits you. (Version 2 November 2023).
